Telephone	N/A
Project Title	Bizchats
Project Description	<p><u>About the company:</u></p> <p>At Bizchats co., we think students should get better tools for their learning, and business professionals need reliable solutions to grow and succeed. The company was founded on the premise that we will be helping students, friends and colleagues communicate is at the essence of a good company. Ensuring that all team members are aligned and informed about upcoming events, allowing for a results-driven environment where employees are motivated to achieve shared goals.</p> <p><u>About the project:</u></p> <p>Bizchats is a versatile web-based and mobile application designed to cater to the needs of educational institutions and businesses. It combines effective communication tools with advanced collaboration features. Bizchats is accessible via the user-friendly website and mobile app on both iOS and Android, allowing users to stay connected anytime, anywhere.</p> <p>For businesses, they can have meetings that can be scheduled right in the app, creating goals that they can all work towards. Their bosses can give them tasks to do and it will notify the employees. They will get reminders on their tasks to work on that will come in the form of notifications. They can create spaces for collaboration where employees can work on projects together, share files, and communicate.</p>

	<p>For the teachers, they can create, join and delete classes, create assignments for the students to do with deadlines, have places to download files for assignments, create groups to assign students to, or let them assign themselves to the group. They can also mark assignments that have been turned in. Some teachers get permissions that are akin to a moderator, like restricting certain things from students.</p> <p>For students, they have the ability to join classes and groups within those classes. They can view their mark and then set goals for themselves, like what mark do they strive for. They can keep track of their homework, deadlines, and tasks so that they never miss an assignment.</p>	
Problem/ Opportunity Assessment *	<i>Please describe current state problem/opportunity that describes the nature and extent of the problem (factual, quantified, concise), or that outlines a chance for advancement or progress.</i>	
	<ol style="list-style-type: none"> 1. 2. 3. 	<p>Disjointed communication tools cause inefficiencies; integrating Zoom can streamline student collaboration.</p> <p>Students lack organized systems for homework and notes, creating an opportunity for improved productivity.</p> <p>Ensuring safe, secure digital environments is essential for student privacy and online well-being.</p>
Desired Project Outcomes/ Requirements*	<i>Define how this project shall address a business need, e.g. the business problem or opportunity described above; describe what the beneficiary must be able to do / receive from the solution</i>	
	<ol style="list-style-type: none"> 1. 2. 3. 4. 	<p>This can be used as a tool that allows for more effective communication.</p> <p>We keep students engaged with our reminders</p> <p>It helps students to organize, track and complete tasks</p> <p>This can be access anywhere from any location or device (it's saved onto a server)</p>
Key Deliverables to be produced by students*	<i>Define the boundaries of work that you expect to receive from the students effort (vs. internal effort)</i>	
	<ol style="list-style-type: none"> 1. 2. 3. 	<p>Each student is required to complete their assigned tasks and contribute fully to the project.</p> <p>Commitment to the project is essential, with consistent effort from all team members.</p> <p>Time management is crucial, ensuring the project is prioritized alongside other academic responsibilities.</p>
Desired Start Date	Sep-11-2024	
Desired End Date	Dec-15-2024
